EDUCATION

Sri Lanka Institute of Information Technology | Malabe, Sri Lanka
Software Engineering (October 2023 – Present) | Graduation Year-2027

- CGPA : 2.62

G.C.E. Advanced Level – Science Stream(Biology)| 2020
Biology – S | Physics – C | Chemistry – C .(Index No.: 1207700)

PROJECTS

GreenRent – Sustainable Apartment Finder

Technologies: React.js, Node.js, Express.js, MongoDB
Feb 2026 – Apr 2026

GitHub: <https://github.com/nimnadee-203/GreenRent>

- Developed the Booking & Reservation Management module.
- Implemented booking creation, management, and reservation workflows.
- Integrated frontend, backend APIs, and MongoDB for booking operations.
- Used React.js, Node.js, Express.js, and MongoDB.

MediSync – AI-Enabled Smart Healthcare Appointment & Telemedicine Platform

Technologies: Node.js, JavaScript, REST APIs, Microservices, Third-Party APIs: Stripe, Ollama

GitHub: <https://github.com/nimnadee-203/MediSync>

- Developed the Payment module using Stripe integration.
- Implemented Notification functionality for system events.
- Developed an AI Symptom Checker using the Ollama third-party API.
- Integrated these services within the microservices architecture.

Ceylon Eco Foods – Food Processing Factory Management System

Technologies: React.js, Node.js, Express.js, MongoDB, Mongoose
July 2025 – September 2025

GitHub: <https://github.com/nimnadee-203/Ceylon-Eco-Foods>

- Developed the Raw Material Inventory Management module.
 - Implemented stock management and new stock additions.
 - Managed production stock requests with approve/deny functionality.
 - Implemented minimum stock level alerts for low inventory.
 - Used MongoDB and Mongoose for inventory data management.
-

SKILLS

JavaScript, React.js, Node.js, Express.js, MongoDB, Mongoose, Git, GitHub, REST APIs, Microservices, HTML, CSS

SOFT SKILLS

Problem Solving, Teamwork, Communication, Adaptability, Time Management, Quick Learning
