

YASHODHI KAUSHALLYA

Software Engineering Undergraduate

Colombo, Sri Lanka | yasodhikaushallya@gmail.com | +94 71 387 4687

PROFESSIONAL SUMMARY

Software Engineering undergraduate with hands-on experience in full-stack web development, REST APIs, microservices, and database management. Skilled in JavaScript, React.js, Node.js, Express.js, MongoDB, and Mongoose, with practical experience developing booking, inventory, payment, notification, and AI-based application features. Strong problem-solving and teamwork skills, with a passion for learning new technologies and building practical software solutions. Seeking a Software Engineering internship to gain industry experience and contribute to real-world software projects.

EDUCATION

BSc (Hons) in Information Technology – Specializing in Software Engineering *2023 - Present*

Sri Lanka Institute of Information Technology (SLIIT), Malabe, Sri Lanka

Expected Graduation: 2027

CGPA: 2.62

G.C.E. Advanced Level – Science Stream *2017 - 2020*

Biology – S | Physics – C | Chemistry – C

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, C, C++, SQL

Frontend: HTML, CSS, React.js, Tailwind CSS

Backend: Node.js, Express.js, PHP

Databases: MySQL, MongoDB, Mongoose

Cloud & DevOps: Docker, Kubernetes

API & Architecture: REST APIs, Microservices

Version Control: Git, GitHub

Tools: VS Code, Eclipse IDE, Android Studui, JIRA, Figma

PROJECTS

GreenRent – Sustainable Apartment Finder | MERN Stack Group Project *January 2026 – May 2026*

- Developed a MERN stack web application for sustainable apartment searching and rental management.
- Implemented responsive frontend interfaces using React.js and Tailwind CSS.
- Designed backend APIs and integrated MongoDB for property and user management.

Github: <https://github.com/nimnadee-203/GreenRent>

MediLink – E-Channeling System | MERN Microservices Project *January 2026 – May 2026*

- Developed a microservices-based healthcare appointment and e-channeling system.
- Implemented backend services using Node.js, Express.js, and MongoDB.
- Used Docker and Kubernetes for containerization and orchestration.
- Worked with REST APIs and service communication within a microservices architecture.

Github: <https://github.com/nimnadee-203/MediSync>

Ceylon Eco Foods – Food Processing Factory Management System | MERN Stack Group Project *February 2025 – April 2025*

- Developed a MERN stack system connecting farmers, factory, and customers.
- Developed the Raw Material Inventory Management module.
- Implemented stock management, production stock requests, and approve/deny workflows.
- Implemented minimum stock level alerts using MongoDB and Mongoose.

Github: <https://github.com/nimnadee-203/Ceylon-Eco-Foods>

FitLink – Gym Discovery & Fitness App | Kotlin, Android Studio, Figma | Mobile Application Project *October -2025*

- Developed an Android application for gym discovery and searching using Kotlin.
- Designed UI/UX prototypes in Figma and implemented them using Android Studio.
- Implemented gym search, listings, filtering, gym details, and navigation.

SOFT SKILLS

- Teamwork & Collaboration
- Problem Solving
- Communication
- Time Management
- Adaptability & Willingness to Learn
- Critical Thinking
- Attention to Detail
